**Abstract:** Authors shall provide an abstract in not less than 250 words explaining the context of their script. Formatted in italics, the abstract shall be written as a single paragraph.

**Key-words:** A list of 07 to 10 keywords shall be provided by the authors for indexing purposes. The keywords should be wisely picked up for gaining a better reach.

## INDEX

Sl. No.	Title	Page No.

UNRLLP

## 1. Introduction:

The abstract is followed by an introduction to the research study. It should be free from any conclusions or any research data.

References should be mentioned in the footnotes such as.<sup>1</sup>

## 2. Tables and Figures

If the authors want to represent any information in graphical/tabular form, such shall be properly named and numbered such as 'Table 1: The demographic scenario of Country X'. Any figures/ pictorial representations used in the script shall be properly cited.

Sl No.	Country X	Country Y
1.	Demo	Demo
2.	Demo	Demo

*Table 1: The demographic scenario of Country X*

## 8. Conclusions

The script must follow a suitable conclusion. Any irrelevant result must be refrained from mentioning. After fully reviewing the script, the editors shall recommend crucial amendments to be made and shall communicate the same to the authors. If found suitable, the scripts should be declared 'accepted' for final publication.

---

<sup>1</sup> Footnotes should be typed in singled-line spacing at the bottom of the page. IJRLLP follows the 'OSCOLA' style of referencing. Authors shall under all circumstances attempt referencing every cited text in the script. The following references should be refrained from being cited in the script namely: Wikipedia links, unpublished reports, personal opinions, and any kind of website data.
